SPECIAL NOTICES.

Ayer's Cathartic Pills

ARE THE MOST PERFECT

purgative which we are able to

prepare, or which we think has ever

been made by anybody. Their

effects are abundantly shown to the

community how much they ex-

ceed their name in power, and to

cure. They are safe and pleasant to

take, and powerful to

cure. Their penetrating properties stimulate

the vital activities of the body, remove the obstructions

of its organs, purify the blood, and expel disease.

They purify the blood, remove the obstructions

of its organs, purify the blood, and expel disease.

They purify the blood, remove the obstructions

of its organs, purify the blood, and expel disease.

CITY NEWS.

Agent of the Democrat in Nashville, Tenn.

Wm. C. COLLIER, 22 1/2 Cherry street, Nashville, is Special Agent for the Daily and Weekly Democrat in Nashville, Tenn. Persons wishing our paper will always find it at his "News Depot," and on sale by the newsmen, upon the arrival of the train.

The Democrat During the Summer Months.

The Democrat can be mailed to persons leaving the city for the summer months, at the rate of one dollar per month, for any time needed, upon making application at the clerk's desk.

POLICE PROCEEDINGS—Monday, July 10.—Chas. Byrnes, drunk and disorderly conduct; fined \$3.

Richard Welch and Walter McNally, drunk and disorderly conduct; fined \$5 each.

St. Clair Travis, drunk and abusing his wife and daughter, who are both confined to their beds by sickness; fined \$3 and held in \$100 for six months.

Henry Fostling, drunk and disorderly conduct; fined \$5 and held in \$500 for six months.

James Gallagher, found on the mail-box in search of other people's pockets; held in \$500 for six months.

Henry Ash, drunk and disorderly; held in \$100 for three months and fined \$5.

Richard Rollins, suspected felon; discharged.

Edward Heizer, stealing a child from J. J. Pitt; sent to the military.

Samuel Winters, drunk and firing a pistol on the street; fined \$3.

Jno. Gross, receiving a pistol, knowing it to have been stolen; continued until Wednesday.

Dick Gordon, stealing a pistol and \$150 from Mr. Murphy; continued until next Monday.

Mary Starr, disorderly conduct; held in \$100 for three months and fined \$5.

FARO BANKS BROKEN UP.—Last week, Lieut. Gen. Grant issued a general order to the various department commanders, authorizing them to break up all the faro banks in the United States, Maj. Gen. Palmer at once set to work to execute the order throughout this State. He accordingly telegraphed and dispatched men to various points with orders to "strike the game on one time," and in a short time it wherever one could be found. On Saturday night, between the hours of 11 and 12 o'clock, Lieut. Nat. Wheeler, with seventy well-picked men, started out to execute the order as far as possible in this city. He divided his men into squads and the result was that in less than one hour the following concerns, with all their stocks, &c., were closed and confiscated:

No. 216 Fourth street, between Main and Market.

No. 204 Third street, between Main and Market.

No. 216 Third street, between Main and Market.

No. 216 Main street, between Second and Third.

Hôtel de Raine (not the drinking saloon).

On Third street, between Market and Jefferson.

The "Emerald," on Fifth street, between Market and Jefferson.

This raid cleaned out the city entirely of the banks and of most of the men who were interested or engaged in working them; that was to be made, and left for parts unknown. While the movement was on foot in this city, others were being made in other towns throughout the State. One at Frankfort was seized and the keeper and dealer arrested. No arrests were made but we learn that there are a number of persons well known in this city who have been dealing heavily and accumulated a large amount of money. Thousands upon thousands of dollars have been swindled out of officers and soldiers in this city during the past month, and many a poor fellow, who has been lavishly treated by the military, has been left penniless. We expect to hear of all the gambling dens in the State and all over the country being broken up entirely, and the sooner the better.

ACCIDENT.—Friday evening last, as Mr. J. S. Kikendall and lady were driving down Gray street, their horse suddenly took fright, and, after a few plunges, wheeled around and started in a different direction. By the sudden turn the buggy was upset, the lady falling heavily on the street and the gentleman being thrown on the pavement. The buggy was smashed to pieces against a tree, while the horse got out of the harness and ran down the street. The gentleman and lady arose without assistance, each greatly alarmed about the other, and it is feared that both are injured. Their friends will greatly regret this, as Mrs. Kikendall has been an invalid for the last twelve months from a similar accident. At the time of the accident, her husband was driving her out for the benefit of the evening air.

WE publish this morning the law card of Robert W. Hays, the partner of the Hon. Nathaniel Wolfe, recently deceased. At the time of the accident, Mr. Hays was under the firm name of Wolfe & Hays, will continue the practice of law, and attend to the business of the late firm and to such other business as may be confided to him by the public. Mr. Hays had been associated with Mr. Wolfe several years before his death, and is familiar with the entire business of the late firm. He is a young lawyer of fine promise and a devoted student. Nathaniel Wolfe, Jr., is associated with Mr. Hays in the office, and the business will go on as heretofore.

PRESIDENT.—No man has filled the position of chief marshal with more fidelity than Captain Geo. L. Swopes, assisted by his clerks Charles Leslie and Geo. Whitton. Yesterday afternoon Mr. Julius Winter, on behalf of a number of citizens, presented Captain Swopes with a fine horse and buggy, and to Messrs. Leslie and Whitton each a splendid gold pen and pencil. The affair occurred at Woods Garden, where swops was made, toast drunk, estalies displayed, and a devoted student. Nathaniel Wolfe, Jr., is associated with Mr. Hays in the office, and the business will go on as heretofore.

NOTICE.—We are requested to announce that the lot of the late firm of Wolfe & Hays, will continue the practice of law, and attend to the business of the late firm and to such other business as may be confided to him by the public. Mr. Hays had been associated with Mr. Wolfe several years before his death, and is familiar with the entire business of the late firm. He is a young lawyer of fine promise and a devoted student. Nathaniel Wolfe, Jr., is associated with Mr. Hays in the office, and the business will go on as heretofore.

August 18th committed suicide in Nashville Sunday.

Five soldiers were arrested for drunkenness yesterday.

Messrs. Lorton and Russell have our thanks for favors.

Pears were worth ten cents each in market; oranges high.

J. G. Brown, a soldier, was arrested yesterday for stealing a pair of pants.

Three cases of sun-stroke proved fatal at Baker's Station, Tenn., a day or two ago.

Six recruits were enlisted in the brigade yesterday. How your own boys.

Six soldiers were picked up yesterday on the streets and put in the barracks.

A soldier, whose name we could not learn, was arrested yesterday, charged with murder.

Officer Leonard yesterday arrested Bruce Faxon on a felony warrant accusing him of stealing.

Yesterday Officer Thos. Slater arrested a man by the name of C. H. Benton, upon the charge of stealing.

G. S. Barnard, company F, 133d Indiana regiment, was arrested yesterday for assisting prisoners to escape.

Win. Fallon and E. Burton were arrested by the military authorities yesterday on the charge of robbery.

Thirty-eight men of the 1st Michigan regiment were arrested in Nashville Saturday on the charge of mutiny.

Two hundred and seventy-six negro passes were issued at the provost marshal's office on Sunday and Monday.

A number of soldiers left for their homes yesterday, their time having expired. No doubt the boys are glad to get home.

A soldier named Dan Cunningham was drowned in the river at Nashville on Saturday. He belonged to the 82d New York regiment.

Col. Dill, provost marshal general department of Kentucky, leaves for his home on a short furlough to-day. Joy go with you, colonel.

Yesterday City Marshal Pat. Dillon arrested a man by the name of A. M. Myers upon the charge of obtaining \$5 and a silver watch from one Edward Heck.

Mr. Phil. Speed, who was attacked by three soldiers on First street, Saturday night, and badly beaten, is not seriously hurt. No doubt the boys are glad to get home.

All the gambling houses in Nashville have been closed by the military authorities, and a number of gamblers arrested. Rather unhealthy for the gamblers now-a-days.

An old-fashioned fist fight occurred on Third street, near Main, yesterday afternoon, between a colonel and lieutenant colonel of the same regiment. The fight lasted for some time, and the eagles won the day.

Improvement.—The Third Presbyterian church will be closed for three or four weeks in consequence of repairs, which the church has needed for some time. It will be entirely overhauled and repainted.

BUILDING.—We notice quite a number of fine residences being erected in the lower part of the city, which is improving very fast. In a few years that portion of the city will be built up and thickly inhabited.

A SNATCH GAME.—A man by the name of W. Goldsmith yesterday attempted to play the snatch game by grabbing from a citizen a \$10 greeback. Officers Cross and Booker, who were near, arrested and lodged him in jail.

On Saturday a boy was arrested on the charge of stealing chinaware from a crate on the wharf. Yesterday Officers W. Ovington and McArthur arrested a boy named Michael Higgins as being concerned in the same robbery.

NUISANCE.—The gutters on the corner of Preston and Main, Hancock between Main and Market, and a number of others in the upper portion of the city are in a most filthy and deplorable condition. The stench is sickening to every passer-by.

MILITARY COMMISSION.—There was no business done by the military commission yesterday, save argument for the defense in the case of Payne Stone, charged with being a guerrilla. The court adjourned to meet again this morning.

A soldier took a pocketbook from a negro last night on the street. The book contained \$1. The soldier handed the 50 cents, saying: "There, boy, is 50 cents and your life. Leave with both as soon as possible." The negro took the 50 cents and advice.

GALT HOUSE.—We learn that the new Galt House is to be built on the northeast corner of Main and First streets, and that a fine block of business houses are to be erected immediately on the ground where the old Galt House stood. Both will be improvements.

In the Democrat of yesterday we made mention that the stable of Jacob Snyder, some ten miles from the city on the Newburg road, had been robbed of a mare and colt. Yesterday Officer J. Hammond arrested, at Jeffersonville, Charles Franklin, who had the stolen property in possession, and who was offering to sell it.

ACCIDENT.—About ten o'clock last evening one of the attaches of the new company at Masonic Temple fell from the back window to the pavement below and so serious were his injuries that he is not expected to live. He is said to have been intoxicated at the time of the accident. We were unable to learn his name, though we inquired of the dramatic company.

CONSUMPTION.—Dr. Hunter's able letter on this fearful disease—which is yearly dragging its thousands to a premature grave—will be found in our columns. Those who have carefully followed the doctor through his remarks on the early symptoms indicated in those affections of the pulmonary organs to which he devotes his exclusive attention, this letter will be found most interesting.

TO BE EXECUTED.—We learn that Sol. Thompson, the guerrilla who was tried and convicted by court-martial in this city, has been condemned to be executed. It has not been the general commanding the execution will take place to-morrow. He is the only son of an aged widow, who is in the city at present, and who had a daughter poisoned by a negro, a son killed by an assassin, and another lost in the rebel army.

CINCINNATI THIEVES.—Yesterday morning a dispatch was received in this city stating that a number of the Cincinnati sharpshooters were in our city and for the police to be on the lookout for them. These facts were made known to our police, and yesterday the following persons, well known as those who ply no honest avocation for a living, and who hail from the "queen city," were arrested: Hugh Doherty, Wm. Johnston, David Hensler, Thos. L. Thirman, Geo. Morris, Jas. Murray and Augustus Crawford.

Dr. Hunter, of New York, on Consumption.

To the Editors of the Louisville Democrat:

Having interesting the study of consumption may be physicians themselves, the only matter of any real interest or importance to the public is involved in the question: Is consumption curable? If not, why not? There must be some sound and sufficient reason why this malady should form an exception to all other diseases. If it is curable, then what means can be accomplished? I take it this is what the public desire to know, and what the physician should endeavor to explain. If I understand the opinion, generally of professional men, almost universal among the people, that consumption is beyond the skill of man to cure, the task of explaining its treatment would indeed be easily accomplished. It would consist in a mere enumeration of the different remedies which have been tried, and of the results which have followed. But, if, as I believe, it is a disease which characterizes itself by cough, fever, prostration, and other symptoms, and if, as I also believe, it is a disease which has its seat in the lungs, and if, as I also believe, it is a disease which is caused by a germ, and if, as I also believe, it is a disease which is transmitted from one person to another, then the task of explaining its treatment would indeed be easily accomplished. It would consist in a mere enumeration of the different remedies which have been tried, and of the results which have followed. But, if, as I believe, it is a disease which characterizes itself by cough, fever, prostration, and other symptoms, and if, as I also believe, it is a disease which has its seat in the lungs, and if, as I also believe, it is a disease which is caused by a germ, and if, as I also believe, it is a disease which is transmitted from one person to another, then the task of explaining its treatment would indeed be easily accomplished. It would consist in a mere enumeration of the different remedies which have been tried, and of the results which have followed. But, if, as I believe, it is a disease which characterizes itself by cough, fever, prostration, and other symptoms, and if, as I also believe, it is a disease which has its seat in the lungs, and if, as I also believe, it is a disease which is caused by a germ, and if, as I also believe, it is a disease which is transmitted from one person to another, then the task of explaining its treatment would indeed be easily accomplished. It would consist in a mere enumeration of the different remedies which have been tried, and of the results which have followed. But, if, as I believe, it is a disease which characterizes itself by cough, fever, prostration, and other symptoms, and if, as I also believe, it is a disease which has its seat in the lungs, and if, as I also believe, it is a disease which is caused by a germ, and if, as I also believe, it is a disease which is transmitted from one person to another, then the task of explaining its treatment would indeed be easily accomplished. It would consist in a mere enumeration of the different remedies which have been tried, and of the results which have followed. But, if, as I believe, it is a disease which characterizes itself by cough, fever, prostration, and other symptoms, and if, as I also believe, it is a disease which has its seat in the lungs, and if, as I also believe, it is a disease which is caused by a germ, and if, as I also believe, it is a disease which is transmitted from one person to another, then the task of explaining its treatment would indeed be easily accomplished. It would consist in a mere enumeration of the different remedies which have been tried, and of the results which have followed. But, if, as I believe, it is a disease which characterizes itself by cough, fever, prostration, and other symptoms, and if, as I also believe, it is a disease which has its seat in the lungs, and if, as I also believe, it is a disease which is caused by a germ, and if, as I also believe, it is a disease which is transmitted from one person to another, then the task of explaining its treatment would indeed be easily accomplished. It would consist in a mere enumeration of the different remedies which have been tried, and of the results which have followed.
